EDUCATION

University of California, Santa Barbara

B.S. in Computer Engineering

Expected Graduation: June 2029

- **GPA:** 3.6
- **Relevant Coursework:** Object-Oriented Programming (C++), Data Structures & Algorithms, Computer Organization, Foundations of Computer Science, Google AI Essentials

TECHNICAL SKILLS

Languages: Python, Java, C++, TypeScript, JavaScript, SQL, HTML, CSS

Frameworks, Tools & Cloud: Next.js (React), Tailwind CSS, Firebase, Git

PROJECTS

- AI Voice Assistant (Python, asyncio, Whisper, Ollama, Kokoro-82M)
 - Built a local voice assistant designed to run in the background with minimal system overhead
 - Offloaded speech transcription and language model tasks to the GPU to preserve CPU resources
 - Implemented asynchronous task queue to decouple command processing from response generation, ensuring responsiveness and monitoring for inputs during response computing
 - Integrated local inference engines to eliminate external API dependency
 - Built a robust, low-overhead pipeline that handles VRAM management for system stability
- Budgeting Web Application (HTML, CSS, JavaScript, Firebase)
 - Developed a budgeting web app with secure Firebase authentication and cloud data storage
 - Utilized interactive pie charts to visualize income and expense categories
 - Implemented secure user creation, authentication, and persistent cloud data storage, ensuring seamless data retrieval for user expense records
- Google Classroom Calendar (Python, Google Classroom API)
 - Automated academic workflows by integrating the Google Classroom API to parse assignments into a dynamic, customizable, and color-coded calendar interface
 - Developed an event creation system with date-based scheduling and local storage for persistent event saving, reuse, and effectiveness

WORK & LEADERSHIP EXPERIENCE

The Coder School Berkeley

Counselor

June 2023 – July 2024

- Mentored groups of 15 students aged 6 to 12
- Taught fundamental coding skills as well as basic object-oriented programming concepts in Python, Micro:bit, and Scratch
- Developed customized lesson plans to engage students and foster critical thinking and creativity
- Managed and motivated students to create original projects while practicing core programming skills

Hanabi Judo

Assistant Coach

October 2022 - August 2023

- Taught fundamental judo techniques, creating discipline and focus
- Supported the main coach by planning and coordinating practice activities
- Provided 1 on 1 coaching to help students improve techniques
